- Duration:** 1h 30 min
Venue: Microsoft Teams
Organised by: UN-Habitat
Supported by: UK Foreign, Commonwealth & Development Office, Global Future Cities Programme Delivery Partners and City Authorities, UK Experts on Housing

Context

The UK Prosperity Fund Global Future Cities Programme promotes sustainable and inclusive urbanisation in 19 cities across 10 countries. Through strategic urban projects under three thematic pillars - transport, urban planning and resilience - the programme takes participatory and inclusive action towards the achievement of the SDGs and the implementation of the New Urban Agenda.

In achieving inclusive prosperity and sustainable cities, housing plays a key role by ensuring access to job opportunities, services and creating social cohesion and inclusive communities. Many of the projects of the Global Future Cities Programme aim at advancing this goal and ensuring adequate and affordable housing for all. In this event we aim to unpack the issue of inclusive housing and share best practices and lessons learnt on mechanisms, strategies and approaches to achieve this.

The networking event will bring together high-level stakeholders from cities in the Philippines, Nigeria and Indonesia as well as international experts from Mott MacDonald, Adam Smith International and UK-based experts from the University of Leicester and Reall social enterprise. UN-Habitat will share global lessons learnt on achieving housing for all, presenting on the ground experiences from the Philippines and Vietnam. The event aims to facilitate knowledge exchange and build partnerships to promote innovative approaches towards achieving housing for all and ensuring inclusive sustainable urbanization.

Objectives

- Share global principles and recommendations on how to achieve adequacy and affordability when providing housing for all with special focus on vulnerable groups.
- Discuss innovations, approaches and mechanisms on inclusive urban regeneration and housing. This includes housing affordability but also universal design practices to address the needs of vulnerable groups.
- Exchange experience, challenges and lessons learned of providing housing for all including slum upgrading, inclusive housing provision and relocation.
- Share experiences from the UK Prosperity Fund Global Future Cities Programme in public participation and active stakeholder engagement.

Key Takeaways

- What are key mechanisms and financing instruments for inclusive and affordable housing, with a special focus on addressing the poor?
- How to ensure inclusivity in housing designs to address different needs including those of vulnerable groups?
- What are key and innovative approaches towards inclusive participatory processes in housing development?
